Ole Sondresen Architect • SANDS POINT HOUSE

CONTEMPORARY FEATURES

Define your modern home with Loewen windows and doors. Discover a wide range of solutions for your contemporary look featuring the sharp design, customizable options, and large openings that only Loewen can provide.

Expansive windows, window walls, and large openings are all features of a modern, contemporary home.

Loewen windows can provide sleek and narrow aesthetics, with the textures and warmth of a wood frame without the lesser thermal performance and increased costs of metal windows.

Theodore & Theodore Architects • LEDGE HOUSE

Renee Del Gaudio Architecture • SUNSHINE CANYON HOUSE

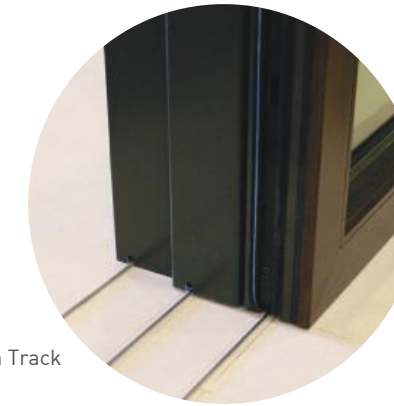

CONTEMPORARY PRODUCTS

Loewen windows are available in a large variety of specialty shapes to fit the aggressive geometrics and unique architecture of a contemporary style home.

LIFTSLIDE

Loewen LiftSlide doors allow expansive door panels to roll smoothly and easily into a pocket or a stack. This door not only provides a panoramic view, but also extends the living space of your home. ►

LiftSlide Flush Track

MULTISLIDE

MultiSlide doors allow for large openings, like a LiftSlide door but with a much narrower stile. These doors are perfect for blending indoor/outdoor living spaces. ►

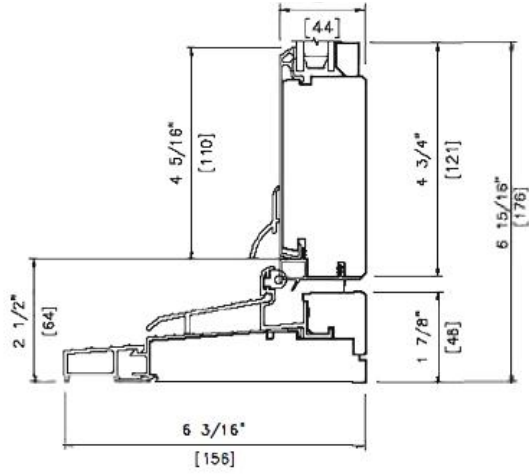

NARROW STILE TERRACE DOOR FEATURES ►

These feature slimmer (3") stiles and rails compared to standard Terrace Door panels while still incorporating the standard Terrace Door frame and sill. Available as inswing, outswing, and fixed Terrace Doors as well as on BiFold doors.

3" NARROW STILE DOOR ►

◀ CORNER WINDOWS

Corner windows provide a unique view and are available in both direct set or sashed configurations. In addition, they are available with butt-glazing or with a low-profile corner post.

With Contemporary Casing

Without Contemporary Casing

CONTEMPORARY CASING ▶

The use of the Contemporary Casing provides a narrow, clean and crisp look to the exterior of the window by concealing the accessory groove of the metal clad frame.

RETRACTABLE SCREEN ▶

Constructed of solid wood to conceal the screen hardware and designed with minimal obstruction to the view, these custom screens are the perfect complement to our Douglas Fir and Mahogany windows. The integrated braking system allows for one-touch retraction.

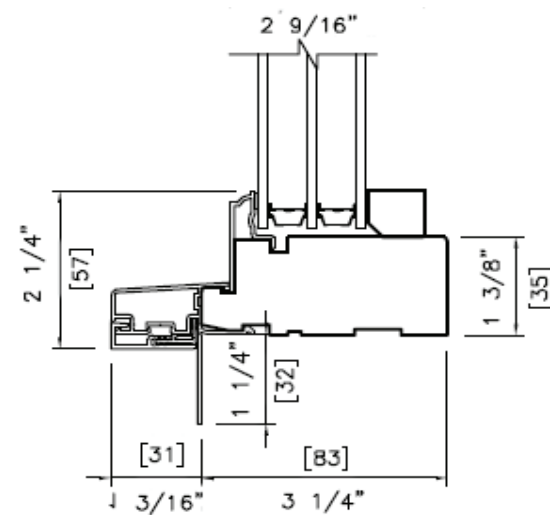

Anne Decker Architects • BETHESDA RESIDENCE

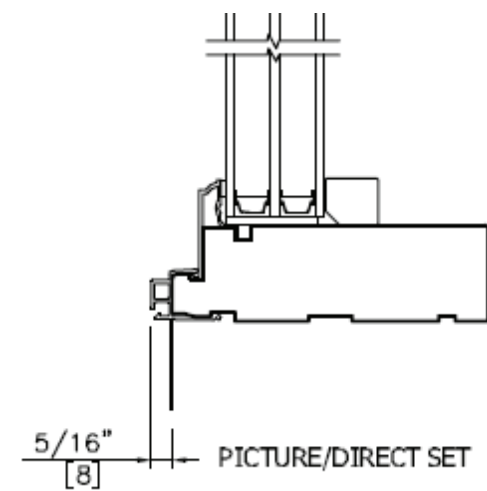

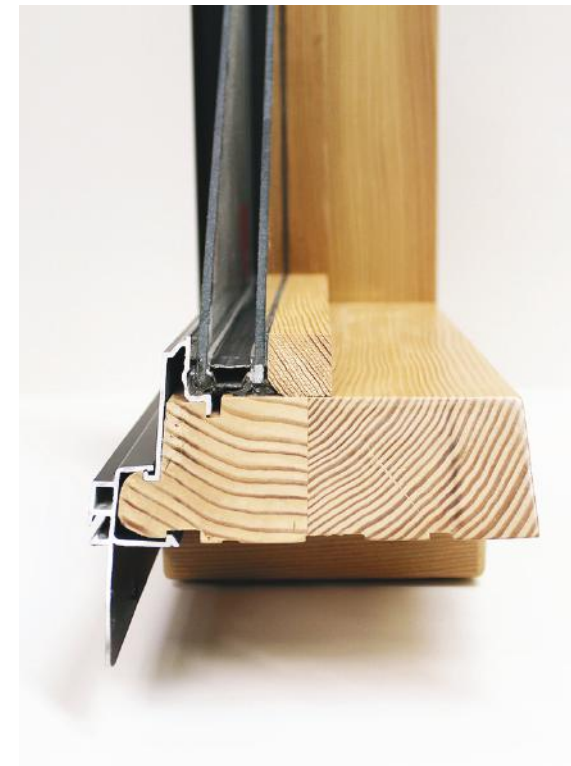

NARROW JAMB WITH CONTEMPORARY CASING

Thin lines and ►
flat profiles can
be achieved with
custom jambs
and square
glazing stops.

CONTEMPORARY FRAME CLADDING

◄ Nailing flange can be moved
back from $\frac{5}{16}''$ to $\frac{3}{4}''$.

CONTEMPORARY HARDWARE

HARDWARE

- Satin Nickel
- Black
- Bronze
- Linen

COLOR AND FINISHES

Loewen uses only pre-finished extruded aluminum (AAMA 2605) cladding to better protect window and door exteriors and eliminate the need for painting. The Loewen contemporary series features metallic painted finishes, matte finishes and anodized aluminum finishes.

METALLIC PAINTED FINISHES

Loewen’s Metallic Painted Finishes provide the perfect finishing touch for fulfilling your vision, while also providing industry leading quality and performance to uphold it.

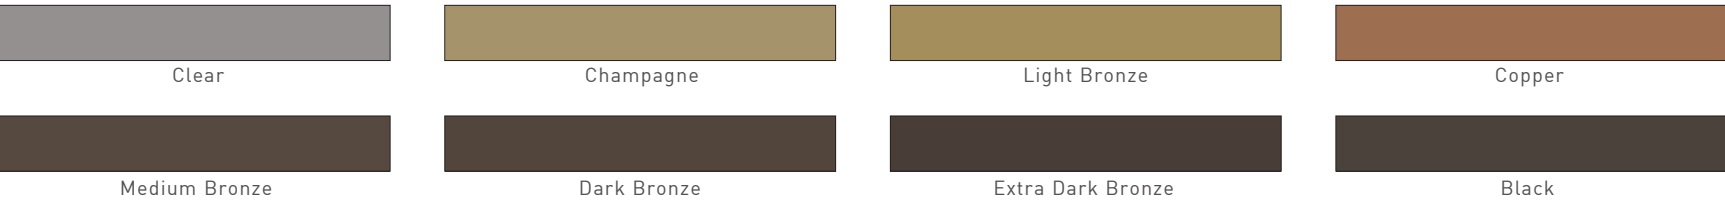

MATTE FINISHES

Reduced lustre matte finish for a metal window appearance.

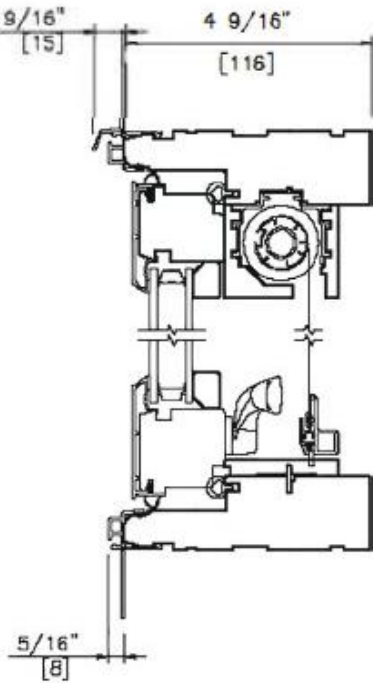

ANODIZED FINISHES

For a durable alternative to paints and organic coatings, our Anodized Finishes offer a rich matte appearance that reduces sunlight glare and allows the aluminum to maintain its metallic appearance. In addition to the aesthetically desirable etching, our Anodized Finishing also increases resistance to corrosion and abrasion on aluminum. This aluminum is 100 per cent recyclable and uses a water-based process with no volatile organic compounds for eco-friendliness.
